<b>1</b>	<b>Introduction</b> . . . . .	<b>1</b>
	<b>Multiplatform Installation</b> . . . . .	<b>2</b>
	<b>Introduction to InstallAnywhere</b> . . . . .	<b>2</b>
	<b>Requirements</b> . . . . .	<b>3</b>
	Authoring Environment Requirements . . . . .	3
	<i>Supported Operating Systems</i> . . . . .	4
	Target Environment . . . . .	4
	<i>Supported Operating Systems</i> . . . . .	5
	<i>Supported Java Virtual Machines</i> . . . . .	5
	<b>Editions</b> . . . . .	<b>6</b>
	Enterprise Edition . . . . .	6
	Standard Edition . . . . .	6
	<b>The InstallAnywhere End-user Experience</b> . . . . .	<b>7</b>
<b>2</b>	<b>Starting a Project Using the InstallAnywhere Project Wizard</b> . . . . .	<b>15</b>
	<b>Building an Installer Using the Wizard</b> . . . . .	<b>16</b>
	<b>Creating a New Project</b> . . . . .	<b>16</b>
	<b>Setting Project Information</b> . . . . .	<b>18</b>
	<b>Installing Tasks</b> . . . . .	<b>19</b>
	Add Files . . . . .	19
	Choose Main Class . . . . .	20
	Setting the Classpath . . . . .	21
	<b>Building the Installer</b> . . . . .	<b>22</b>
	<b>Testing the Project</b> . . . . .	<b>23</b>
<b>3</b>	<b>Introduction to the Advanced Designer</b> . . . . .	<b>25</b>
	<b>Installation Planning</b> . . . . .	<b>25</b>
	<b>Installation Goals</b> . . . . .	<b>26</b>

	<b>Working with Advanced Designer</b> .....	<b>26</b>
	<b>Defining Installer Projects and the Product Registry</b> .....	<b>27</b>
	Product Registry .....	27
	Installer Identification and Version .....	28
	<b>File Settings: Timestamps and Overwrite Behavior</b> .....	<b>29</b>
	Installed File Timestamps .....	30
	Default Overwrite Behavior .....	30
	<b>Platforms</b> .....	<b>32</b>
	<b>Locales</b> .....	<b>35</b>
	<b>Rules Before the Pre-Install Task</b> .....	<b>35</b>
	<b>Creating Debug Output</b> .....	<b>35</b>
	Installer Debug Output .....	35
	<b>Virtual Machines</b> .....	<b>36</b>
	Optional Installer Arguments .....	36
	Java .....	36
	<b>Quick Quiz</b> .....	<b>37</b>
<b>4</b>	<b>Building Releases</b> .....	<b>39</b>
	<b>Build Targets</b> .....	<b>39</b>
	VM Packs .....	41
	VM Selection .....	42
	<b>Distribution</b> .....	<b>43</b>
	Web Installers .....	44
	CD-ROM/DVD Installers .....	45
	Burning CD-ROM Installers .....	45
	<b>Merge Modules and Templates</b> .....	<b>47</b>
	<b>Build Log</b> .....	<b>47</b>
<b>5</b>	<b>Basic Installer Customization</b> .....	<b>49</b>
	<b>Customizing the Installer Look and Feel</b> .....	<b>50</b>
	<b>Installer UI Modes</b> .....	<b>51</b>
	<b>Splash Screens</b> .....	<b>51</b>
	<b>GUI Panel Additions</b> .....	<b>52</b>
	<b>Installer Panel Additions</b> .....	<b>54</b>
	Panel Labels .....	54
	<b>Background Images</b> .....	<b>55</b>
	<b>Panel Action Settings</b> .....	<b>56</b>
	Image Settings .....	56
	Label Settings .....	57

	<b>Help</b> .....	<b>59</b>
	<b>Conditional Logic</b> .....	<b>60</b>

	<b>Quick Quiz</b> .....	<b>62</b>
<b>6</b>	<b>Installer Organization</b> .....	<b>63</b>
	<b>Install Sets, Features, and Components</b> .....	<b>63</b>
	Install Sets .....	63
	Features .....	64
	Components .....	65
	<b>Using the Organization Task</b> .....	<b>66</b>
	Install Sets .....	66
	Features .....	70
	Components .....	71
	Types of Components .....	72
	<i>Shared Components</i> .....	73
	<i>Component Dependencies</i> .....	73
	<b>Organizing Your Features and Components</b> .....	<b>74</b>
	Best Practices for Components .....	74
	Best Practices for Features .....	75
	Best Practices for Install Sets .....	75
	<b>Adding Files to Your Project</b> .....	<b>76</b>
	Adding Individual Files .....	76
	Magic Folders .....	79
	Adding Directories with SpeedFolders .....	80
	Specifying Source Files with Manifest Files .....	83
	<b>Quick Quiz</b> .....	<b>85</b>
<b>7</b>	<b>Introduction to Advanced Actions and Panel Actions</b> .....	<b>87</b>
	<b>Adding an Action</b> .....	<b>88</b>
	Action Availability by Task .....	90
	General Actions .....	91
	Action Groups .....	92
	Pre-Install/Uninstall and Post-Install/Uninstall Actions .....	92
	<b>Examples of Common Actions</b> .....	<b>93</b>
	Set InstallAnywhere Variable Action .....	93
	Display Message Panel .....	96
	Set System Environment Variable .....	98
	<b>Display HTML Panel</b> .....	<b>99</b>
	<b>Application Servers and Database Servers</b> .....	<b>101</b>
	<b>Common Properties</b> .....	<b>104</b>
	LaunchAnywhere Executable .....	104
	<b>Quick Quiz</b> .....	<b>106</b>
<b>8</b>	<b>Applying Basic and Intermediate Development Concepts</b> .....	<b>107</b>
	<b>Building the Installer</b> .....	<b>108</b>

	<b>Debugging InstallAnywhere Installers. . . . .</b>	<b>109</b>
	During Installer Development . . . . .	109
	Debugging a Windows Installer. . . . .	110
	Debugging a Unix/Linux Installer . . . . .	111
	Debugging a Mac OS X Installer. . . . .	111
	Debugging a Pure Java Installer. . . . .	111
	Debugging LaunchAnywhere Executables . . . . .	112
	Reviewing Debug Information. . . . .	113
	Using Output Debug Information Actions. . . . .	114
	Debugging Using the Display Message Panel . . . . .	114
<b>9</b>	<b>Source and Resource Management . . . . .</b>	<b>115</b>
	<b>How Source Paths Work . . . . .</b>	<b>116</b>
	<b>Adding Source Paths . . . . .</b>	<b>117</b>
	InstallAnywhere Preferences . . . . .	117
	System Environment Variables. . . . .	118
	<b>Updating the Location of Files and Resources . . . . .</b>	<b>119</b>
	<b>Managing Source Files . . . . .</b>	<b>120</b>
	<b>The Resource Manager. . . . .</b>	<b>120</b>
	<b>Adding Source Path Management Capability to Your Installer Project. . . . .</b>	<b>121</b>
	Enabling/Disabling Source Paths . . . . .	121
	<i>Default Source Paths</i> . . . . .	121
	Adding Source Paths. . . . .	122
	<i>Preferences Menu</i> . . . . .	122
	<i>Set System Environment Variables.</i> . . . . .	122
	Using Source Paths in Your Project . . . . .	123
	<i>Switching Access Path Locations.</i> . . . . .	124
	<b>Quick Quiz . . . . .</b>	<b>125</b>
<b>10</b>	<b>Advanced Installer Concepts. . . . .</b>	<b>127</b>
	<b>Console Installers. . . . .</b>	<b>127</b>
	<b>Silent Installers. . . . .</b>	<b>132</b>
	Using a Response File. . . . .	132
	Configuring Variables Used in Response Files . . . . .	133
	<b>Uninstallation . . . . .</b>	<b>135</b>
	Feature-Level Uninstallation . . . . .	137
	Uninstaller Integration with the Target System. . . . .	138
<b>11</b>	<b>Advanced Organizational Concepts. . . . .</b>	<b>141</b>
	<b>Using the Find Component in Registry Action. . . . .</b>	<b>141</b>
	<b>Merge Modules and Templates . . . . .</b>	<b>142</b>
	Merge Modules. . . . .	143
	Templates . . . . .	145

Merge Module Types . . . . .	146
<i>Design-time Merge Modules</i> . . . . .	146
<i>Build-time Merge Modules</i> . . . . .	146
<i>Install-time Merge Modules</i> . . . . .	146
<i>Dynamic Merge Modules</i> . . . . .	147
Creating Merge Modules and Templates . . . . .	147
<i>Build Options</i> . . . . .	147
<i>Merge Module Size</i> . . . . .	147
<i>Creating Merge Modules as Read Only</i> . . . . .	147
<i>Advertised Variables</i> . . . . .	148
Adding Merge Modules . . . . .	149
<b>Importing a Design-time Merge Module</b> . . . . .	<b>150</b>
<b>Advanced Topic: Importing ISMP Manifests</b> . . . . .	<b>152</b>
<b>InstallAnywhere Collaboration and DIMs</b> . . . . .	<b>154</b>
Creating a DIM . . . . .	155
Unit Tests . . . . .	160
Consuming a DIM in an InstallAnywhere Project . . . . .	161
<b>FLEXnet Connect</b> . . . . .	<b>164</b>
<b>Quick Quiz</b> . . . . .	<b>165</b>
<b>12 Integrating InstallAnywhere with Automated Build Environments</b> . . . . .	<b>167</b>
<b>InstallAnywhere Command-Line Build Facility</b> . . . . .	<b>167</b>
Builder Arguments . . . . .	168
<b>Advanced Topic: Project Automation</b> . . . . .	<b>169</b>
<b>Digitally Signed Installers</b> . . . . .	<b>170</b>
<b>Ant Build Integration</b> . . . . .	<b>171</b>
Task Definition . . . . .	171
Task Settings . . . . .	172
<b>13 Custom Code</b> . . . . .	<b>173</b>
<b>Writing Custom Code</b> . . . . .	<b>174</b>
<b>Custom Code Actions</b> . . . . .	<b>175</b>
Custom Code Action Example . . . . .	175
Writing the Action Code . . . . .	175
Compiling and Packaging the Action Code . . . . .	177
Adding the Custom Action to Your Project . . . . .	177
Packaging Custom Code as a Plug-in . . . . .	180
Adding Plug-in Help . . . . .	182
Using Custom Code Actions in Uninstall . . . . .	182
<b>Accessing Properties and Variables</b> . . . . .	<b>183</b>
Custom Variables and Response Files . . . . .	185
Variables and Proxy Classes . . . . .	185
<i>substitute</i> . . . . .	185
<i>getVariable</i> . . . . .	186

<b>Example: Displaying the Current Time</b> .....	<b>186</b>
<b>Custom Code Rules</b> .....	<b>188</b>
Reading the InstallAnywhere Product Registry .....	190
<b>InstallShield MultiPlatform Services</b> .....	<b>191</b>
Compiling and Packaging Code That Uses ISMP Services .....	192
Adding ISMP Code to Your Project .....	192
File Service .....	194
Security Service .....	195
System Utility Service .....	195
Advanced Topic: Service Differences Between ISMP and IA .....	196
Advanced Topic: Querying the ISMP Registry .....	197
Debugging Custom Code .....	198
<b>Advanced Action Methods</b> .....	<b>199</b>
<b>Writing Custom Errors in the Installation Log</b> .....	<b>201</b>
<b>Working with Java Native Interface (JNI)</b> .....	<b>202</b>
JNI Example 1: Basic Text Display .....	203
Write and Compile the Java Class .....	203
Use javah to Create a Header .....	203
Creating the Native Method .....	204
Running the Program .....	204
JNI Example 2: Calling a Windows DLL from a Custom Code Action .....	205
Building the Distribution Archive .....	206
Accessing the Library at Run Time .....	207
Potential Problems Using JNI .....	208
Additional Resources .....	209
<b>Quick Quiz</b> .....	<b>210</b>
<b>14 Custom Panels and Consoles</b> .....	<b>211</b>
<b>User Input Panels</b> .....	<b>211</b>
Using the Simple Get User Input Panel .....	213
Variables and the Get User Input Panel .....	215
Using the Advanced Get User Input Panel .....	215
<b>Custom Code Panels</b> .....	<b>218</b>
Creating a Custom Code Panel .....	219
Packaging, Adding, and Testing the Custom Code Panel .....	220
Adding Controls to the Custom Code Panel .....	222
Laying Out the Custom Code Panel .....	223
Working with Variables .....	225
Buttons and Action Listeners .....	227
<b>Custom Code Consoles</b> .....	<b>230</b>
Custom Code Console Actions .....	230
Additional Console Controls .....	232
<b>Quick Quiz</b> .....	<b>234</b>

<b>15</b>	<b>Localizing and Internationalizing Installers</b>	<b>235</b>
	<b>Bidirectional Text Support</b>	<b>238</b>
	<b>Dynamic and Static Text</b>	<b>239</b>
	<b>Localization and the Internationalized Designer</b>	<b>239</b>
	<b>Specific Localization Concerns</b>	<b>240</b>
	Localizing Resources	240
	Localizing the Splash Screen	240
	Localizing Custom Installer Labels	242
	Using External Resource Bundles	243
	Localizing Custom Code	244
	Best Practices for Localizing	244
	Changing Localized Text	245
	Modifying Localized Text	245
	Changing Default Translations Provided in Language Packs	245
	<b>Localizable Elements</b>	<b>246</b>
	Localizing Items in the Installer	246
<b>A</b>	<b>Installation Planning Worksheet</b>	<b>249</b>
	<b>Target Platforms</b>	<b>249</b>
	<b>Installer Target</b>	<b>249</b>
	<b>Deployment Media</b>	<b>250</b>
	<b>Application Type</b>	<b>250</b>
	<b>Java-Specific Options</b>	<b>250</b>
	<b>Installation Needs</b>	<b>250</b>
	<b>List Configuration that Must Be Done to the Target Platform</b>	<b>251</b>
	<b>What Information Must Be Collected from the End User?</b>	<b>251</b>
	<b>Uninstall Options</b>	<b>252</b>
<b>B</b>	<b>Index</b>	<b>253</b>
