Manually Resolving Errors .....	.398
<b>E Creating a Customized Virtual Package .....</b>	<b>399</b>
<b>Building a Microsoft App-V Application .....</b>	<b>.399</b>
Getting Started .....	.401
Step 1: Specifying Package Information and Deployment Options .....	.402
Step 2: Managing Files in an App-V Application .....	.403
Step 3: Setting Isolation Options for Folders and Files .....	.404
Step 4: Modifying Shortcuts to the App-V Application's Executable Files .....	.406
Step 5: Modifying App-V Application Registry Settings .....	.407
Step 6: Setting App-V Application Registry Isolation Options .....	.408
Step 7: Performing Dynamic Suite Composition .....	.409
Step 8: Modifying Build Options .....	.410
Step 9: Building an App-V Application .....	.411
Step 10: Testing an App-V Application Using the App-V Application Launcher .....	.413
<b>Building a ThinApp Application .....</b>	<b>.414</b>
Getting Started .....	.415
Step 1: Specifying ThinApp General Settings .....	.416
Step 2: Managing Files and Folders in a ThinApp Application .....	.417
Step 3: Setting ThinApp Isolation Options .....	.418
Step 4: Modifying Shortcuts to the ThinApp Application's Executable Files .....	.421
Step 5: Modifying ThinApp Application Registry Settings .....	.422
Step 6: Modifying Build Options .....	.423
Step 7: Building a ThinApp Application .....	.424
<b>Building a Citrix Profile .....</b>	<b>.426</b>
Getting Started .....	.427
Step 1: Specifying Citrix Profile Information .....	.428
Step 2: Specifying Operating System and Language Requirements .....	.429
Step 3: Managing Files and Folders in a Citrix Profile .....	.430
Step 4: Setting Isolation Options .....	.431
Step 5: Modifying Profile Shortcut Settings .....	.432
Step 6: Modifying Profile Registry Settings .....	.433
Step 7: Modifying Build Settings .....	.434
Step 8: Building a Citrix Profile .....	.435
